

# Live Well, Work Well

## People vaccinated against the flu last

- 10% of the total population
- 15% of the total population
- 20% of the total population
- 25% of the total population

Get vaccinated. Being vaccinated against the flu is your best chance of preventing the illness. The CDC recommends that anyone 6 months and older get a flu shot every year. The flu and COVID-19 vaccines

## Where Are the Germiest Places?

Germ are a part of life and h\Ym\Y everywhere. The dry air associated with fall and winter also makes it easier for germs to spread and linger in the air. Here are some germ hot spots:

Home Remote controls, kitchen counters, bathroom fixtures , 26i0 (l)5 (ho)-130 (t-6.0 (s)-12.997996 (6)-130m
